PGCert – 2012-2013 (with distinction, awarded November 2014)
Higher Education Teaching, Abertay University

PhD — 2010-2012 (sustained with no corrections, awarded July 2013)
Psychology, University of Aberdeen

Postgraduate Diploma (with distinction) — 2009-2010
Psychology, University of Aberdeen

Master of Arts (Upper Second Class Honors) — 2005-2009
Psychology, University of Aberdeen

Employment history

Lecturer in Psychology (Abertay University, September 2012 – Present)

I lead teaching activity at the modular level ('Advanced Biological Psychology: The Science of Attraction' and 'The Implicit and Explicit Mind'), lecture on other final year and MSc modules ('Advanced Biological Psychology: Human Evolutionary Psychology' and MSc Research Methods) and have guest-lectured on a module hosted by our School of Science, Engineering and Technology ('Applying research on face perception and recognition to security'). Across three cohorts ('The Science of Attraction' N=76) I score well across all items on student course evaluation forms (Mean=2.18/5), with mean scores under 2 for feedback and level of support provided to students and overall organization. As of November 2014, I have supervised 1 MSc student and 19 BSc Honors students to completion. I have co-supervised 2 Masters by Research students and 4 MSc students to completion. I am also a member of the School's Ethics Committee.

Public engagement

My Dundee Science Festival Lecture on the Science of Attraction (Nov 2013) is available on AbertayTV on Youtube. It has already been viewed over 5500 times in over 100 countries (05/2015). My 'Face of Dundee' project was delivered as a public lecture in November 2014 and has attracted recent media attention. My research has received media attention from the BBC, STV, The Times, The Courier, The Scotsman, The Daily Record, The Evening Telegraph and local radio.
